

PORTABLE LIGHTING PRODUCTS

ProPolymer® flashlights are available in xenon bulb models and new LED models.

These high performance, alkaline powered flashlights are available in a variety of sizes, power, and run times to meet virtually any need or application.

The entire ProPolymer line is Class I, Division 1-Approved for use in hazardous locations – unique for LED flashlights.

Whichever ProPolymer fits your need, you can be sure that they all have the same legendary ProPolymer features:

First, they are incredibly bright – and the LED models are long-lasting.

They're also extremely tough and virtually unbreakable. All models are non-conductive, Shock-resistant, corrosion-proof, and waterproof.

And, with push-button switching for easy, one handed operation, they're remarkably handy.

Each ProPolymer model is available in yellow, black, and olive drab.

Xenon

ProPolymers®

Extremely bright xenon bulbs combined with computer-designed reflectors provide an unmatched brightness.

LED

ProPolymers®

State-of-the-art, lifetime LEDs allow a battery life 20 times longer than standard flashlights.

Xenon 3C

Order Code: 33250 (Yellow)

AUS Approved Intrinsically Safe
(AUS Ex ia s Zone 0 IIB T2 IP67)
(Cert # AUS Ex 02.3805X)

Battery	3 x C Alkaline
Light Source	1 x Watt Xenon
Light Output	Xenon - 50 Lumens 16,000 Peak Beam Candlepower
Focus Type	Wide
Run Time	Xenon - Max 5.0 hours
Weight	383 Grams
Dimensions	Length 217mm
Material	Virtually indestructible, non-conductive Polymer with a rubber face cap for impact and shock resistance.
Special Features	Waterproof Features a wrist lanyard connection. Has a spring-loaded clip.
