

PORTABLE LIGHTING PRODUCTS

H.I.D. LITEBOX SEARCHLIGHT

The HID Litebox Searchlight is a heavy-duty, portable, rechargeable search light with incredible brightness - 3350 Lumens typical - that can illuminate objects a kilometer away.

The proprietary deep-dish parabolic reflector, combined with the 35 Watt High Intensity Discharge Xenon lamp, produces an optimized beam pattern that features a tight, high-intensity spot beam while still providing peripheral illumination for scene lighting. The increased output represents a major advance for industrial, law enforcement, fire, and search and rescue professionals needing an ultra-bright portable light capable of providing large-scale scene, as well as spot lighting. The Litebox HID Standard is supplied with both AC and 12VDC charging adaptors for mains or vehicle use via a cigarette lighter adaptor. The Vehicle Mount version is for hard wiring as a permanent fixture. Both versions are available in safety orange or black housings.

Battery	12V, 7.2Ah Sealed Lead Acid
Light Source	1 x 35 Watt High Intensity Xenon
Light Output	3350 Lumens, 1,000,000 Peak Beam Candlepower
Focus	Spot
Run Time	Xenon - 1.5 hours 2 x LEDs - 100 hours
Weight	4.6 KG
Length	380mm
Material	High-impact thermoplastic housing. Elastomer impact bumper and cushioned grip
Special Features	Weatherproof construction. Optional infrared filter. Dual white navigation LED's (typically 9 Lumens each) are included to allow users to save battery power in situations where they do not require the full brightness of the HID lamp.

H.I.D. LITEBOX SEARCHLIGHT

Order Codes:

45603 **HID Litebox Standard - Orange**
