High Performance Tactical Lights

Streamlight® proudly presents two new lines of high performance tactical lights: the **Tactical Light™ (TL) Series** and the **NightFighter® (NF) Series**.

These personal, lithium-powered flashlights offer you the power of blinding white light and the convenience of a lightweight, compact design. Made of machined aircraft aluminum with an anodized finish, they're rugged and dependable. They also match and even beat the performance of other tactical lights, and have standard features that other lights offer only as options. All at a more affordable price.

Features of the TL™ Series and NF-2® tactical lights:

- Compact, lightweight, lithium-powered personal flashlights
- Adjustable spot-to-flood focus (Xenon models only)
- Machined aircraft aluminum with anodized finish
- Non-protruding tailcap switch to decrease the chance of accidental activation
- Momentary push button tailcap, which rotates for locked "on"
- One hour of continuous runtime (xenon)
- LED versions provide up to 20 hours of continuous runtime
- Spare bulb contained within flashlight (xenon models only)
- Available in black and olive drab green

The brightest flashlight in its class

TL-2™

The lightest flashlight in its class

NF-2®

Non-protruding tailcap switch to decrease the chance of accidental activation

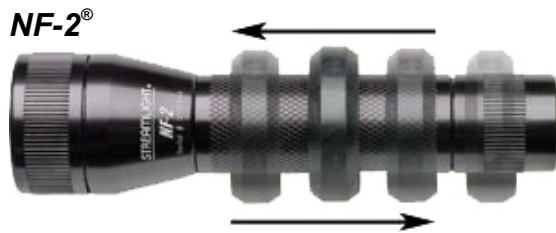

Xenon models feature Spot-to-flood focus for versatile lighting

Standard Accessories

Streamlight's tactical lights include an adjustable wrist lanyard and a removeable spring-steel pocket clip.

The fully adjustable ring – unique to the NF-2 – adjusts to any hand size, providing a sure grip for many one-handed operations.

The TL-3™ provides even more power.

TL™ SERIES

Also available: The TL-2™ LED and the TL-3™ LED. Both LED models use a Luxeon™, super-high flux LED - 10 times brighter than a high-intensity LED - giving you the longevity of an LED with the brightness of a high-powered conventional bulb.

PORTABLE LIGHTING PRODUCTS

High Performance Tactical Lights

Tactical Lights 2 Lithium

Order Codes

88102 Black

Battery	2 xCR123A Lithium
Light Source	1 x High-intensity Xenon
Light Output	114 Lumens 7,900 Peak beam candlepower
Focus Type	Adjustable spot to flood
Run Time	1 hour
Weight	119 Grams
Dimensions	Length 229mm
Material	Corrosion and water resistant, anodized machined aluminum alloy.
Special Features	Spare bulb, pocket clip, adjustable lanyard, adjustable grip-ring, serialized for positive identification, water resistant.

Tactical Lights 2 Lithium LED

Order Codes

88105 Black

Battery	2 x CR123A Lithium
Light Source	One 1 Watt Super High-Flux LED
Light Output	47 Lumens
Focus Type	Wide
Run Time	1.75 hours at high intensity Additional 1.5 hours of declining usable light
Weight	122 Grams
Dimensions	Length 133mm
Material	Anodized machined aluminum alloy.
Special Features	Includes pocket clip and adjustable wrist lanyard. Water resistant, O-ring sealed.

Tactical Lights 3 Lithium

Order Codes

88103 Black

Battery	3 x CR123A Lithium
Light Source	High-intensity xenon
Light Output	211 Lumens, 11,500 Candlepower
Focus Type	Adjustable
Run Time	1 hour
Weight	198 Grams
Dimensions	Length 159mm
Material	6000 Series machined aircraft aluminum with anodized finish, both models available in Black
Special Features	lithium batteries with a storage life of 5-10 years (included)
